Part II: Understanding Estate Planning Documents in Your State

State Laws About Wills

A will is a legal document that provides instructions for what you would like to have happen to your property upon death. A will is also a place where parents can name a guardian for any minor children or adult children with developmental disabilities.

Nevada probate courts accept written, holographic, and electronic wills. To make a valid written will in Nevada:

- 1. You need to be in the right state of mind to create a will. This means you need to be:
 - o At least 18 years old
 - Of "sound mind" (meaning you know what you're doing)
 - o Free from coercion or outside pressure
- 2. You need to sign the will or authorize someone to do so for you, in front of two witnesses who are not included in your will. If your only witnesses are included in your will, they will forfeit anything you leave to them in the will.
- 3. Your will does not need to be notarized to be legal in Nevada. However, you can make your will "self-proving," or accepted in probate court without the court needing to contact your witnesses. To do this, you and your witnesses must sign (1) a declaration under penalty of perjury or (2) an affidavit affirming the will in front of a notary.

A holographic will is one that is handwritten by you. To make a valid holographic will in Nevada:

- 1. You need to be in the right state of mind to create a will. This means you need to be:
 - o At least 18 years old
 - Of "sound mind" (meaning you know what you're doing)
 - Free from coercion or outside pressure
- 2. Your will must be written in your handwriting and you must sign and date it.

If you make a holographic will, it does not need to be signed by witnesses. However, most estate planning experts do not recommend relying on holographic wills because it is more difficult to prove that they are valid in probate court.

An electronic will is one that is created and maintained in an electronic record. To make a valid electronic will in Nevada:

- 1. You need to be in the right state of mind to create a will. This means you need to be:
 - At least 18 years old
 - Of "sound mind" (meaning you know what you're doing)
 - Free from coercion or outside pressure

- 2. The will must include your electronic signature and the date. Your electronic signature must include at least one of the following:
 - An authentication characteristic (i.e., something unique to you, such as your fingerprint or a digitized signature);
 - The electronic signature and the electronic seal of a notary placed in your presence (and in whose presence you signed); or
 - The electronic signatures of two witnesses who are not included in your will. When the witnesses sign the will electronically, you need to be present at the time of signature.

State Laws About Financial Powers of Attorney

A power of attorney for financial affairs is a legal document where you (the principal) name a trusted adult (the agent) who is authorized to make financial decisions on your behalf.

In Nevada, a general power of attorney allows you to appoint someone to manage your finances, including assets like your property, taxes, and government benefits. You can also appoint a successor agent, and a second successor agent, in case the first person you choose cannot be your agent. This person can make all financial decisions for you, or you can limit their powers to specific areas, like filing taxes or banking. You can also use this document to nominate a guardian in advance, in case a court decides one is necessary. Unless you indicate otherwise in the "special instructions" section, this document takes effect immediately after you sign it. This document will remain in effect until you die, unless you revoke your power of attorney.

Part III of this toolkit includes a sample form.

State Laws About Advance Health Care Directives

An advance health care directive (AHCD) is a legal document you can use to provide written instructions, or state preferences, about your medical care in case you become unable to communicate. In Nevada, this document contains four parts. You can complete part one and/or part two, but you must sign part three to make the document valid. If you reside in a hospital, residential facility, facility for skilled nursing, or home for individual residential care when you complete your directive, you need to complete part four.

- 1. Nevada Power of Attorney for Health Care: You can choose someone (your "agent") to make health care decisions for you, including decisions about life-sustaining care, any time your doctor determines that you cannot make them yourself. You can appoint an alternate person to make these decisions if the first person you chose isn't available. This section also allows you to express your preferences for advance planning decisions to help guide your agent. If there are additional directions you want your agent to follow, you can share those in the "other directions" section.
- 2. **Nevada Declaration:** Also known as a "living will," this document lets you express your preferences for lifesustaining procedures (including medically assisted nutrition and pain management) if you develop a terminal condition and can no longer make your own health care decisions. This document goes into effect if your doctor determines you have become terminally ill or entered a vegetative state. If you complete part one and record these advance planning preferences there, you may choose to leave your declaration blank.
- 3. **Signature and Witnessing Provisions:** You must sign your advance health care directive to make it legal. For part one, you need to have your signature witnessed by a notary public or two witnesses. Your witnesses may not be the person you chose to make health care decisions for you, a health care provider, an employee of your health care provider, or an operator or employee of a health care facility. One of your witnesses may not be related to you by blood, adoption, or marriage, or entitled to any portion of your estate. For part two, you should sign the document in front of two witnesses.

4. **Certification of Competency:** If you reside in a hospital, residential facility, facility for skilled nursing, or home for individual residential care when you complete your directive, you need to complete this section. An advance practice registered nurse, physician, psychologist, or psychiatrist will fill out this form to certify you are competent of making these decisions.

At the end of your AHCD, you can indicate if you would like to make an organ donation upon death.

If you are pregnant and the decisions you make in this document would interfere with facilitating life-sustaining treatment to the fetus, then it will not be honored.

You can indicate that you would like to change any other instruction included in your AHCD at any time. You can simply tell your physician you would like to revoke or change your AHCD, do so in writing, or just tear up this directive. But, you have to tell your attorney-in-fact, physician, or treating health care provider that you revoked this person's powers for it to be effective.

If you appoint your spouse as your attorney-in-fact, this will be automatically revoked if your marriage dissolves.

Part III of this toolkit includes a sample advance health care directive.

State Laws About POLST/MOLST

A physician order for life-sustaining treatment (POLST) is a medical order completed by a seriously ill person and signed by a physician. The POLST does not replace an advance directive. You can complete a POLST form with your doctor. In Nevada, this form lets you indicate your preferences for:

- Cardiopulmonary resuscitation orders (also known as a "Do not resuscitate," or DNR order)
- Medical Interventions, ranging from all medical and surgical treatments available to prolong your life, selective treatments to restore your health while avoiding burdensome procedures, or comfort-focused treatments to manage symptoms and allow natural death
- Life-sustaining antibiotics
- Medically assisted nutrition, or food and hydration offered through surgically-placed tubes
- Other limitations (like dialysis or IVs) or instructions for your care

This form will not expire, so it is important for you and your physician to review it regularly to make sure it still reflects your wishes.

You can find this form in Part III of this toolkit.

State Laws About Funeral Designation Forms

Funeral designation forms allow you to tell your loved ones what you would like to happen to your remains after you pass away. These forms can be used to choose someone to control what happens to your remains after your death, specify what you would like to have happen, and other wishes depending on your state.

Nevada does not have a dedicated funeral designation form, but you can include instructions for your remains in your advance health care directive.

State Laws About Death with Dignity

"Death with Dignity" laws, or physician-assisted dying/aid-in-dying laws, allow certain terminally ill people to voluntarily and legally request and receive a prescription medication from their physician to hasten their death in a peaceful, humane, and dignified way. By adding a voluntary option to the continuum of end-of-life care, these laws can give you dignity, control, and peace of mind during your final days with family and loved ones.

Nevada does not have a death with dignity law.

Federal Law About HIPAA

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) is a federal law that protects the privacy of your health information. HIPAA does allow your protected health information to be shared with your personal representative who has authority to make health care decisions for you (i.e., your health care agent or proxy).

To guarantee your agent's access to information, a HIPAA authorization form should be signed and dated by you. Also, it must identify the information to be disclosed, the purpose of the disclosure, the recipients of the information, and an expiration date. This means that any advance health care directives should be clear about the scope of your agent's authority to receive protected health care information.

You can revoke a HIPAA authorization form at any time by notifying your health care provider in writing.

Part III of this toolkit includes a sample HIPAA authorization form. For more information: www.cdc.gov/phlp/publications/topic/hipaa.html.

© 2005 National Hospice and Palliative Care Organization. 2023 Revised. If I should lapse into an incurable and irreversible condition that, without the administration of life-sustaining treatment, will, in the opinion of my attending physician, cause my death within a relatively short time (a terminal condition) and I am no longer able to make decisions regarding my medical treatment, I direct my attending physician, pursuant to the Nevada Uniform Act on the Rights of the Terminally III, to:

_____ 1. Keep me comfortable and allow natural death to occur. I do not want any life-sustaining treatment or other medical interventions used to try to extend my life. I do not want to receive nutrition and fluids by tube or other medical means.

((or))

_____ 2. Keep me comfortable and allow natural death to occur. I do not want any life-sustaining treatment or other medical interventions used to try to extend my life. If I am unable to take enough nourishment by mouth, however, I want to receive nutrition and fluids by tube or other medical means.

((or))

_____ 3. Try to extend my life for as long as possible, using all available life-sustaining treatment or other medical interventions that in reasonable medical judgment would prevent or delay my death. If I am unable to take enough nourishment by mouth, I want to receive nutrition and fluids by tube or other medical means.

Any questions regarding how to interpret or apply my declaration shall be resolved by my agent appointed under a durable power of attorney for health care (Part I), if I have appointed one.

PART III: EXECUTION

Nevada requires that you execute your form using the Nevada statutory language, which is reflected in the forms below.

If you fill out Part II, you must sign your form in front of two witnesses and use the Nevada statutory language.

If you fill out Part I, you can make your advance directive legal in one of two ways.

1. Sign your document in the presence of two witnesses and use the Nevada statutory language. These witnesses cannot be:

- the person you name as your agent,
- a health care provider,
- an employee of a health care provider,
- an operator of a health care facility, or
- an employee or an operator of a health care facility.

At least one of your witnesses must be a person who is not related to you (by blood, marriage or adoption) and who will not inherit from you under any existing will or by operation of law.

Signing your document in this way will also make Part II legal.

OR

2. Have your signature witnessed by a notary public and use the Nevada statutory language. Having your signature notarized will only make Part I legal (i.e., Part II needs an additional witness besides the notary).

You should retain an executed copy of this document and give one to your agent. The power of attorney should be available so a copy may be given to your providers of health care.
