

Webinar

Navigating Health Care with Amyloidosis

An amyloidosis diagnosis brings practical questions along with the medical ones.

This webinar will provide practical information to help individuals diagnosed with amyloidosis and their caregivers navigate health insurance and accessing care. The webinar will highlight considerations specific to the amyloidosis community and provide resources to help attendees make informed decisions about their coverage and care.

Topics will include:

- Health insurance options, including Medicare
- Making enrollment decisions
- Accessing second opinions
- Strategies to address barriers to care
